

Introduction

Clan A3

Joseph 1830/Joseph 1856 with sources

We are presently working on Baltes 1735, William 1765 and John 1800 and we are in need of documentation. We have tried to reconstruct sources quoted by others and we have been able to retrace only some of the source material. During our search for hard copy's we discovered additional facts that were not listed by the researcher. By not precisely describing where the material came from, you can make it impossible to relocate the source and render the material as questionable.

Ever wonder why an individual does not appear on the census of the year they were born; check out the date that the census was taken, it's at the top of the page, sample: ***"Enumerated....on 20th day of April, 1910"***. This fact can support other data; it proves the family member was born after that date.

Please send any info to: Jaksetic@optonline.net

We would greatly appreciate any assistance.

Thank you

Tullio & Theresa (Hendershot) Jaksetic
